

## ITP Family COVID-19 Screening Tool for In-Person Visits

When the need for an in-person visit is identified ITP staff and contractors are required to review the COVID-19 screening questions below with the family before each in-person visit to determine if an in-person visit is safe. This must be done when scheduling the in-person visit with the family.

Prior to the visit, review the ITP Family COVID-19 Screening Tool for In-Person Visits document within 24 hours of the scheduled in-person visit with the family/caregiver. If any member of the family's household developed one or more of the identified symptoms or had any changes to the COVID-19 screening questions, **DO NOT** move forward with and cancel the in-person visit.

People with COVID-19 have had a wide range of symptoms reported – ranging from mild symptoms to severe illness. Symptoms may appear **2-14 days after exposure to the virus**.

1. Are you or is anyone in your household currently experiencing any of the following symptoms of illness **related to the coronavirus (COVID-19)**?
  - a) Fever
  - b) Chills
  - c) Fatigue
  - d) Cough
  - e) Shortness of Breath or Difficulty Breathing
  - f) Body Aches
  - g) Headaches
  - h) Sore Throat
  - i) Nausea
  - j) Vomiting
  - k) Diarrhea
  - l) Loss of Taste or Smell
  - m) Any Other symptoms
2. Have you or anyone in your household had contact with someone who has tested positive for COVID-19 within the past 14 days?
3. Have you or anyone in your household had contact with someone who has been tested for COVID-19 and are awaiting results?
4. Have you or anyone in your household traveled to or been visited by someone out of state in a high prevalence COVID-19 location?
5. Do you, your child, or anyone in your household have a compromised immune system or other risk factors that may make you or them susceptible to serious complications to COVID-19?
6. Has your child's doctor indicated that a home visit is not safe given your child's diagnosis/medical condition?

In the event a family answers "yes" to any of the above questions the scheduled in-person visit may not take place and must be cancelled. If necessary, work with the family to identify potential future timeframes to conduct a safe in-person visit. Please refer to the Department of Health and Welfare COVID-19 policy and the CDC website for additional information.
